

The Farm Biosecurity Award

Producers contend with diseases, pests and weeds of all descriptions on a daily basis. The Farm Biosecurity Award aims to reward the development and implementation of risk mitigation mechanisms to help secure farms from diseases, pests and weeds. The Farm Biosecurity Award will be given to a worthy recipient achieving in the areas of onfarm biosecurity management. These contributions will ensure protection, sustainability and biodiversity of Australia's agriculture industry.

What was the aim of your/the farm biosecurity initiative?

What was the reason the above aim became important?
